

## G-CAT Board Meeting 6/17/2013

### In attendance:

Loren Janulewicz  
Larry Ransford  
John Hartnett  
Vic Evans  
Irene Young

### Discussion:

- May minutes read and approved.
- We reviewed the financials and revenue is up year to date. Revenue for May was \$91,164 compared to \$83,400 for month last year yet profits doubled to \$30,438 this year. So far for the month of June revenue is \$67,000 so if continues we could have a very profitable June.
- Golf Now appears to be a beneficial tool since we are getting play from them and it only costs one tee time. We had 448 rounds for the month of May booked through Golf Now. That is a small percentage of total rounds which was 3608, but that is additional rounds that were booked.
- Ed is working hard on booking more tournaments. Looks like we have 26 booked right now. We had one cancel (due to lack of interest) in June but have had 6 played by the middle of June. Appears they have been very successful both for us and the tournament.
- The air line repair made last month appears to be working. In past the compressor for the lines worked continuously. Now the compressor shuts off occasionally (a good thing). Bob is not having to spend as much time patching the lines so he can concentrate on other concerns (also a good thing).
- There is a proposal to put storage units where the empty parking structure is located (across the street from holes 5 & 6). As far as the golf course is concerned this could be a good thing because we might get signage for the course as part of the units.
- The mixer (men's and women's golf groups) was a success. Not sure if another will be held this year but for sure will do one next year (that decision is the golf groups).
- Discussed time of play and who should play from blue tees. We are still reviewing options, but right now if have issue with someone on the course should call pro shop and they will send someone out to handle the situation.
- Meeting adjourned.
