## *Heather Ridge Metro District Newsletter*

*March 2010*

- \* On December 1, 2009, the Metro District purchased the open space fondly known as Heather Ridge Country Club. The purchase was funded using a tax exempt bond for \$5.195M. Purchased for \$3.1M, the remaining funds used for closing costs, operational reserves, and capital funds.
- \* Now re-named the Golf Club at Heather Ridge, the District contracted with United Associations Heather Ridge, Inc to operate it. The UAHR has three on-site volunteer managers: Vinny Roith (Sausalito), General Manager; Ray Griffiths (Cobblestone Crossing), Marketing and Business Office; and Ed Oswald (Fairway 16), golf and grounds operations.
- \* A new well is being drilled next to the 16<sup>th</sup> tee box. The 40 year old well won't pump enough water and it's unreliable. The new well will go down 1,500 plus feet to 'wet its beak' in the Arapahoe Aquifer. A new in-line pump system will produce three times more water at lower energy costs. Drilling is expected to conclude this spring.
- \* The Metro District is replacing club house heating and cooling systems as needed. The first new central air system has been ordered for April installation. (Continued on Pg 2)

- \* The Metro District plans to publish a monthly news magazine similar to Heather Gardens' *Heather 'N Yon*. Their magazine is a terrific community resource and communication tool, and Heather Ridge Metro District intends to duplicate it on a smaller scale. If plans work out, the first publication will be this July. The Metro District asks each HOA to consider publishing their information, newsletters, and announcements in it. Costs and rates will be available in April.
- \* Grants: We have applied for two \$250,000 open space grants- wells and community trails. The 16<sup>th</sup> tee box well is being replaced now from budgeted funds, but the 5<sup>th</sup> tee box well needs financial help if done this year. If we receive grant money well planning will start immediately. As a public asset, the golf paths are now walking paths shared by everyone. The Metro District is seeking grant funds to replace/repair severely damaged walking paths.
- \* Old and dead trees are being removed and replaced with new ones. The old cotton woods and Russian Olives should never have been planted. Replacement trees will be selected for easy care, foliage, and growth rate.
